February 2021

Dear Parents and Community Members:

We are pleased to present you with the Annual Education Report (AER), which provides key information on the 2019-2020 educational progress for the Robbie Hall Parker Elementary School. The AER addresses the complex reporting information required by federal and state laws. The school's report contains information about student assessment, accountability, and teacher quality. If you have any questions about the AER, please contact Mrs. Shannon King, principal, for assistance.

The AER is available for you to review electronically by visiting the following website: <https://www.mischooldata.org/annual-education-report-1/>, or you may review a copy in the main office at your child's school.

For the 2019-20 school year, schools were identified using definitions and labels as required in the Every Student Succeeds Act (ESSA). A Targeted Support and Improvement (TSI) school is one that has at least one underperforming student subgroup. An Additional Targeted Support (ATS) school is one that has a student subgroup performing at the same level as the lowest 5% of all schools in the state. A Comprehensive Support and Improvement (CSI) school is one whose performance is in the lowest 5% of all schools in the state or has a graduation rate at or below 67%. Some schools are not identified with any of these labels. In these cases, no label is given. Robbie Hall Parker Elementary school has not been given a label.

Parker Elementary continues to strive for the best education for our students. We continue to hire the best candidates to teach our future generations. Through creative time management, and continuing professional development for our teachers we are doing what is in the best interests of our students. We are a customer service driven business, and our business is kids. We continue to strive to reach all students both academically, emotionally, and socially.

State law requires that we also report additional information:

- All students in kindergarten through fifth grade reside in the Clintondale School District or have applied to our district under our Schools of Choice program.
- School Improvement Goals were developed at the end of the 2016-2017 school year in

consultation with staff, parents, and students. These goals are driven by student achievement data as well. The goals are revisited and revised each year. For the current school year, Parker will be focusing on our reading and writing scores from the NWEA testing cycle. We will also continue to grow the school's involvement with our Zones of Regulation.

- Parker Elementary's goal is that 60% of all students will meet or exceed their expected growth in math and reading as measured by the MAP assessment by June 30th.
- In the 2018-2019 school year, 92% of students were represented by at least one guardian at Parker Elementary conferences.

Parker Elementary will continue to work to address all school issues and student concerns by identifying key areas that need improvement. As a district, we have identified literacy as a key initiative. We have hired an Elementary Literacy Coach as well as created Academic Tutoring after school for any child that needs academic support. Once identified, we will begin to work with these students in small groups helping to improve where they have struggled academically in the past. Teachers will engage in data driven conversations through Professional Learning Communities (PLC's) which will improve instruction and help to implement small group interventions through a strategic MTSS program. Student progress will be monitored and Professional Learning Communities will be utilized to improve student learning for all. Parker Elementary will continue with professional development focusing specifically on Restorative Practices, Trauma Informed Schools and continued Literacy Professional Development. It is through these practices, and with our leadership team that we will update our overall school improvement goals.

Robbie Hall Parker Elementary School continues to provide a quality education for all students. We are proud of the innovations which have supported our students in their learning and development.

Sincerely,

Mrs. Shannon King  
Principal
