Clintondale Middle School

October 11, 2021

Dear Families,

On October 10, 2021 the Clintondale Community School District was notified that a person at Clintondale Middle School, tested positive for COVID-19. The person was last in the building on October 07, 2021.

In accordance with the Macomb County Health Department, we are assisting the Department of Health in contact tracing efforts. The Department of Health Services will notify those who are identified as being in close contact and will issue quarantine orders as applicable. Spread is more likely when people are in close contact with one another (within 6 feet for at least 15 minutes). Illness begins 2 to 10 days after a person is exposed.

As always, the health and safety of our students and staff is top priority. Therefore, the staff member, and all students who were potentially exposed are directed to quarantine for 10 days from the date of contact or for 7 days if the contact receives a negative viral (PCR or Antigen) test performed at least 5 days after exposure. Students who will be allowed to email their teachers and join their courses through Schoology in order to maintain access to their courses.

If you have any questions, please feel free to contact me at 586-791-6301 ext 1002.

Sincerely,

Maurice Woods, Principal
Clintondale Middle School
